NAME: J.Sri vaishnavi

BATCH: 39

ROLL NO : 2303A52056

Lab 14: Web Design Application – AI-Assisted HTML/CSS/JS Generation

Task 1 – Portfolio Website Design

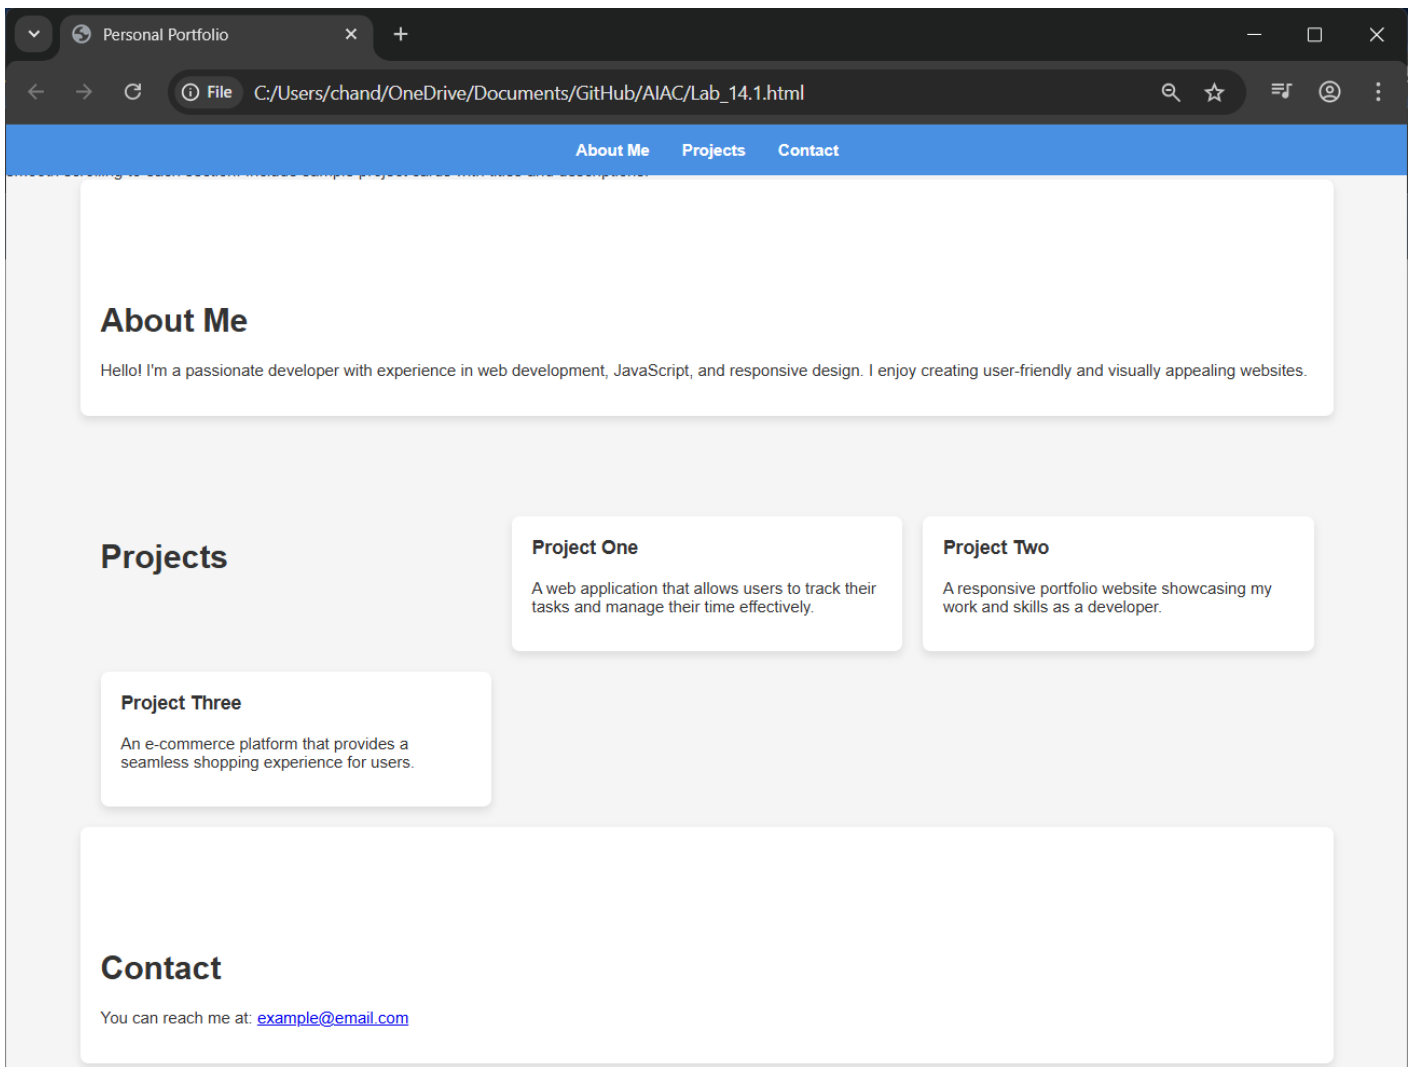

You are building a personal portfolio website to showcase your work.

Requirements:

- Create sections for About Me, Projects, and Contact.
- Use AI to:
 - o Suggest color palettes and typography.
 - o Create a responsive layout with Grid/Flexbox.
 - o Add smooth scrolling navigation.

```
Lab_14.1.html > html
1 #Task - 1
2 #Create a responsive personal portfolio website using HTML, CSS, and JavaScript. The website should include three sections: About

Task 2 – Online Store Product Page

Design a product display page for an online store.

Requirements:

- Display product image, title, price, and "Add to Cart" button.
- Use AI to:
 - o Style with BEM methodology.
 - o Make layout responsive.
 - o Add hover effects and "Add to Cart" alert.

Task 3 – Event Registration Form

Build an event registration form for a conference.

Requirements:

- Collect name, email, phone number, and session selection.
- Use AI to:
 - o Add form validation with JavaScript.
 - o Make the form accessible with labels and ARIA.
 - o Style with a professional look.

```
Lab_14.1 > Lab_14.1_3.html > html > head > style > body
1 #Task - 3
2 #Create an event registration form using HTML, CSS, and JavaScript. The form should collect name, email, phone number, and
3 session selection using a dropdown menu. Add JavaScript form validation to check required fields, email format, and phone number
4 length. Ensure accessibility by using proper labels and ARIA attributes. Style the form with a clean and professional design
5 suitable for a conference website. Make the form responsive.
